Kelly Lu
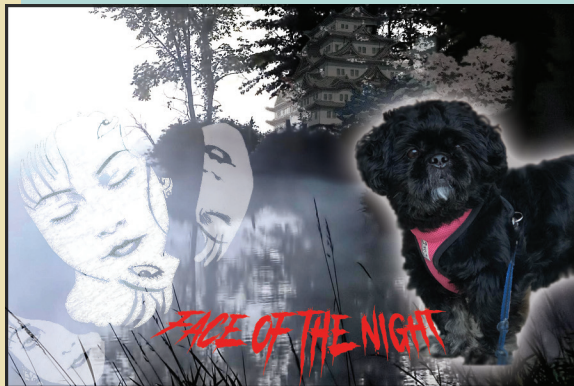

Vmd 105

Hi! My name is Kelly and I wanted to take VMD to learn more about photoshop and adobe animate.

In addition, my current major is animation.

The color I'm using is in this document is ment is TOYO 0541 and the typeface I'm using is OCR A Std and Shree Devangrandi.

Raster Project

FACE OF THE NIGHT

For the Raster layer project, I found
an image from a website and just went
with the creepy and mysterious vibe.
Since the image had very muted col-
ors, I chose to add other elements that
would compliment the mysterious theme.
I think being able to create the final
art piece was the most exciting part
because you get to show your creativi-
ty.

Animation Project

Kelly Lu || VMD 105

The animation project is the most challenging assignment, but in the end it was the most rewarding to finish. Although it took a long time to create the movements of the character, I loved being able to see the character come to life and watch it act with sound. The best part about this project is the end and how you get to watch your entire scene unfold.

Vector Project

Kelly Lu || VMD 105

Lastly, the vector project was very enjoyable to put together. I chose to draw a character that I drew before. Even though the character didn't turn out the way that I wanted to I still learned alot about adobe illustrate and how much fun the pen tool is! One challenge that I faced was that adobe illustrate basically cuts each shape which made it a little complicated to create my character.
